

# 1 BOTH RED AND AMBER WILL COME-ON TOGETHER: As packaged.

# 2 STOCK ORIGINAL FUNCTION: Just cut the green jumper for operation as original 1928/31 model "A". Yellow is stop light, red is running (tail) light.

# 3 OPTIONAL - FOR YELLOW TURN SIGNAL AND RED STOP LIGHT: For vehicles with added turn signals. This option requires additional wiring from turn signal switch to tail lamps.

## IMPORTANT NOTE:

Be sure to route wiring to the side of the divider plate, not over the center.
